

HOW TO USE INDEX

In the master index on the next two pages, articles are listed alphabetically by title and are numbered consecutively. The cross-index by author or subject on this page refers to the number of the article in the master index.

Example: Solid Waste 37

No. 37 in the master index will give the title, page and month for the article on the subject of solid waste. Thus No. 37 on the master index shows "New Uses for Solid Waste," page 16, August.
